Please see map for location-

For directions visit the website: www.nottinghamconferences.co.uk/emcc/

BCME is the largest mathematics conference of any kind in the UK. It takes place only once every four years and attracts delegates from all sectors. These include teachers from early years to higher education, researchers, teacher educators, CPD providers, advisers, consultants, policy makers, examiners and professional academic mathematicians.

Wherever you work, as a delegate at **BCME8**, you will have an unrivalled opportunity to mix with colleagues in your own specialist area, and broaden your horizons by making connections with those from other specialisms.

Bookings will open in November, with delegates having a choice between standard and on-suite student rooms, on-site hotel accommodation and non-residential registration. In the meantime, further information about **BCME8** will become available on the website: www.bcme8.org
