Spring Term Meeting

Includes FREE Maths CPD

Title: Sequences vs Functions; Skip counting vs Multiplication; “Oh, I get it” vs “Ah, I see”

Patterns vs Structure

Stimulated by an article from MT247 (the ATM journal) by Anne Watson on the role of sequences in the National Curriculum, this session will explore a range of mathematical situations where an emphasis on structure can produce deep mathematical thinking.

Pete will also invite you to discuss the teaching implications of this.

Presenter: Pete Griffin

Assistant Director (Maths Hubs)

National Centre for Excellence in the Teaching of Mathematics

Date: Tuesday, 22nd March, 2016

Time: 7pm

Venue: Exeter Maths School,
Rougemont House,
Castle Street,
Exeter EX4 3PU

Refreshments will be available from 6:30pm

(If you hope to come please let us know as it would be helpful to know how many to cater for.)

To do this and for further details please contact Sue Waring: news@m-a.org.uk
