

Meridian Maths

The Meridian branch of the MA / ATM aims to attract teachers at all levels; from both the primary and secondary sectors. We meet twice a year, and generally attract an enthusiastic group of attendees to our Saturday morning meetings in Reading. Our aim is to provide a lively session that is a little different to CPD provided at school: something worth getting out of bed early on a Saturday for and something to take straight back to our classrooms.

Meeting **Saturday March 10th 2018**

9:30 to 12:30 - Abbey Junior School's Abbey Gardens, RG2 7AQ

Our new feature at Meridian Maths meetings!

Resource sharing often happens within departments, and we want to share good practice!

Bring a 'Tried and Tested' resource that you have used successfully in your own classroom, and take home many more from other like-minded Maths teachers. Primary or Secondary, old or new, created or 'borrowed' from other sources – if it works, we want to know about it!

d

Netty Glatter

Designer-creator extraordinaire: Netty has devised a set of curriculum based maths games; Mathletts. Check your school resource cupboard for your department copies; want to know how to play and use effectively in lessons? Netty will show us how!

Directions to venue:

Abbey Junior School's Abbey Gardens, Northumberland Ave, Reading RG2 7AQ

Abbey Gardens is on the corner of Christchurch Gardens and Northumberland Avenue.

Access to the car park is off Christchurch Gardens.

NOTE: This is not the same building as the Abbey Senior School, and just round the corner from the Junior School buildings on the main road
