

Student Problem Corner – Permission Form November 2023

Background

The Mathematical Gazette is a journal of The Mathematical Association which appears three times a year. Each issue contains a section called Student Problem Corner. In each issue two fresh problems are set and solutions and comments on the problems in the previous issue are provided. In addition, names of pupils (with schools) who successfully solved either one or both the previous problems are given. Under a law which came into force in May 2018, The Mathematical Association cannot include these personal details in the *Gazette* without permission. The MA and the Gazette comply fully with the provisions of the 2018 GDPR legislation. *Note that if permission is not given, the pupil may still participate and will be eligible for a prize in the same way as others.*

Please complete as indicated:

Pupil name(s)	Permission (Yes / No)

Name and address of school

Name of teacher

Printed

Signed
